Daily Challenge 5.7

No review or problem today, since all of the make-up challenges (4.1, 5.1, 5.2, 5.3, 5.5, 5.6) are due by end-of-day today.

I realize that this is a lot of challenges to do in one day. Perhaps we should have a meeting tonight where we review the solutions to a few of these challenges, which should make catching up easier. Let's discuss on Slack if you're interested.
